

**1.7.2017**

**From the Chairman's Desk**

Dear Colleague,

Today on 1<sup>st</sup> of July, sixty years back, the TNEB came into existence. It was then called as the Madras State Electricity Board and was subsequently renamed as Tamil Nadu Electricity Board (TNEB). It has been a long and arduous journey of sixty years, with significant milestones being achieved and stalwarts striding like colossus working to improve the infrastructure in the state.

On this occasion of the sixtieth anniversary of the board, I congratulate each and every employee of the board, both past and present, for their commitment, sincerity and hard work.

We have come a long way and you would have seen from the media reports that after along gap of fifteen years, the board is '**breaking-even**' after cutting down the losses.

In my view, this is just the beginning of the journey and we should make all efforts to continue this without any hiccups.

- 2 -

As you would have noticed, a slew of new generation projects both in conventional and renewable energy are being taken up for capacity enhancement in addition to huge transmission and distribution improvements. I am confident that this will result in providing the much needed Energy Security to the people of Tamil Nadu in future also.

The onerous responsibility of taking forward the legacy of these sixty years into the future is on each and every one of us and I hope and pray that all of us will prove worthy of that task.

I wish you all the very best in your official and personal life.

With best wishes.

  
(M.Sai Kumär) 11/7/17
