Sir/Madam,

Sub: TANGEDCO – RDSS – Execution of Scheme - Instruction to be followed
- Regarding

* * * * *

RDSS scheme is under progress and LOA for RDSS loss reduction works is issued by CE / IT & RAPDRP for 29 packages and balance 15 packages are under process. In the past, difficulties were faced in giving progress reports to scheme related works to Government. The following instructions are to be followed for RDSS Scheme in ERP System for creation of POs, Work Order, etc.

1. Contract, Despatch Instruction & Turnkey contract (Material & Labour) to be issued for RDSS related activity to be created in ERP System by selecting Category as SCHEMES & Sub Category as RDSS in ME21N (PO Creation T Code). It is now validated as a mandatory field in ERP System.
2. Material ID is available with Valuation Type CAP_SCHEME for RDSS related purchase and drawl. Contract & Despatch Instruction to be issued for RDSS schemes should be tagged with Valuation type CAP_SCHEME.
3. Labour Contract if any for RDSS Schemes also to be created only with service master in service purchase. Free text against service field should not be used in ERP System.
4. Separate Project ID for RDSS Schemes will be created for all circles and all estimates / work order to be created under the Project ID and closed then and there as and when work is completed and put into use.

5. RDSS Estimates to be created with Project Type (RH - AGRI FEEDER SEGREGATION, RI - HVDS, RJ - SEPERATION DOUBLE DTS, RK - RECONDUCTERING OF EX 33KV FEEDERS) & Material with valuation type CAP_SCHEME and other estimates should not use the CAP_SCHEME Materials.
6. Service Purchase Order to be tagged with Project ID against each and every line items. ERP Team will assist in creating the Service Purchase Orders against the LOA issued by CE/IT & RAPDRP.
