To

THE CHIEF ENGINEER / Materials Management,
TANGEDCO,

ALL CHIEF ENGINEERS / Distribution Region,
TANGEDCO.

Lr.No.GS/TNEBES/F10/D186 /2014,Dt.16.04.2014.

Sir,

Sub: Purchase of spares for MRT / Special (Maintenance) – urgent action – requested – Reg.

To manage power crisis and to exercise R&C measures the equipments of the sub-stations are extensively used rather than its normal course of operation.

Due to this abnormal increase in operations, the equipments of the sub-stations are frequently getting defective and require immediate repair / replacement.

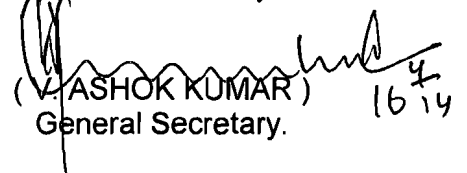

Now-a-days, the spares for replacement by MRT / Special (Maintenance) are mostly not available with MRT / Special (Maintenance), instead it is being insisted to supply by the field engineers (SS / O&M). This creates lot of hardship and involves high cost for purchase of lesser quantity of spares.

The details of equipments like make, capacity, type, design, etc., are available with MRT / Special (Maintenance). Hence they are well aware of the spares which frequently required for the maintenance of equipments in the sub-stations.

Hence, we request the Chief Engineer / Materials Management, and the Chief Engineers / Distribution Region to kindly look into this matter and take suitable action to procure and use spares by MRT / Special (Maintenance) wing itself rather than insisting the field engineers to purchase and supply the spares or to pay the cost of the spares.

Thanking you, Sir,

Yours sincerely,

(V. ASHOK KUMAR)
General Secretary. 16/4
