GUIDELINES ON ADMINISTRATIVE MATTERS AND ENTITLEMENTS
(COMPILED UPTO 31.12.2011)

Compiled by:
TNEB ADM. STAFF AND OFFICERS’ ASSOCIATION
FOREWORD

The TNEB was formed from 01.07.1957 in order to achieve the Consumer’s satisfaction by extending service connection to all the Industries, Cities, Villages, shops, Farms etc. in Tamilnadu.

In such vast organisation the Administration is very vital for efficient working of the Board. For the successful running of the Board, the staff and officers are required to have best performances by updating their knowledge and skills. For this purpose particularly the personnel in the Administration are expected to make themselves thoroughly conversant with the Rules, Regulations, Board proceedings, Instructions, Amendments, Clarifications etc. issued by the Board from time to time. The monthly Gazette published by the TNEB contains the above said items. This is very useful to the Adm. Personnel, for dealing with the administrative matters. But Mostly they are not able to identify the required rule in time and dispose of the matters quickly. To remove this hardship, Rules, Regulations, Board proceedings, Instructions, Amendments, Clarifications issued and published in the Gazette upto 31.12.2003 were compiled through a book “A GUIDE ON ADMINISTRATIVE MATTERS” which was released on August 2005.

According to the new Electricity Act, 2003 the TNEB has been restructured as three entities with effect from 01.11.2010 in G.O.No.100 dt.19.10.2010.

The entities are named TNEB Ltd., TANTRANSCO and TANGEDCO and functioning on the changed names as C.M.D. and Directors. Eventhough the corporations are functioning separately, they are followed the same Rules, Regulations, Board proceedings, Instructions, Amendments, clarifications etc. issued by the Board till date.

It is expected that this is followed till the corporations will regulate its own Instructions and Rules to be complied by the Company Secretaries. It is presumed that it will take years together. Hence it is decided to revise the Book upto the period of 31.12.2011. The revised book is named as “Guidelines on Administrative Matters and Entitlements.

These are grouped under various headings comprising the subjects and short hints on it. An Index in the alphabetical order indicating reference number, date, page and year is provided that we require day to day official functioning. Some of the Executive orders which are not available in the monthly Gazette are also displayed in it. Blank sheets are also provided at the end of each heading for making additions.
Collection and compilation of this book is a difficult job. This has been done effectively within short period by Thiru S. Ezhilarasan, Head Quarters Secretary with the assistance of Thiruvalargal S. Muniyandi, Joint Secy. V. Kalyanasundaram, Vice President, K. Srinivasan, Ex. Treasurer and R. Govindaraj (Rtd. Adm. Officer) member of the Association. Our thanks to Sugan Computer Graphix, Chintadripet, Chennai-2 for Typesetting and Printing this book.

We are happy to release this book by the Chief Engineer Coimbatore Region Thiru A. Thangavelu and receive the same by the Supt. Engineer Coimbatore North Circle, Thiru N. Ananthakrishnan on the occasion of our Association’s General Council Meeting held at Coimbatore on 09.12.2012. Thus we are honoured for our hard work in preparing and releasing this Book. We are thankful to them.

It gives us immense pleasure to see this book, which We are sure will prove to be a source of inspiration for one and all in TNEB LTD., TANGEDCO AND TANTRANSCO.

1. SALIENT FEATURES OF THE ELECTRICITY ACT 2003

(Per) CMD TANGEDCO Pro No.9(SB) dt.15.11.10(P12/11/10)

1. BUSINESS OF ELECTRICITY
   1. Generation
   2. Transmission
   3. Distribution
   4. Trading

2. MAJOR OBJECTIVES OF THE ACT.
   1. Promoting competition
   2. Rationalisation of Tariff

The Act has come into effect from 10-6-2003 in some states.

3. SALIENT PROVISIONS OF THE ACT.
   1. Generation delicensed except hydroelectric projects
   2. Captive generation freed of restrictions and clearances
   3. Concept of open access introduced
   4. Multiple Distribution licensees and parallel distribution networks made possible
   5. Trading in power as a distinct activity - license required
   6. Appellate Tribunal for appeal against the orders of State and Central Regulatory Commissions.
   7. State Transmission Utility
      - a neutral entity
      - barred from trading
   8. Restructuring of State Electricity Boards through a transfer scheme
   9. Phased elimination of cross subsidies
4. **CAPTIVE GENERATION.**

‘Captive generating plant’ means a power plant set up by any person to generate electricity primarily for his own use and includes a power plant set up by any co-operative society or association of persons for generating electricity primarily for use of members of such co-operative society or association.

--- Definition made very liberal.

--- Captive generation shall have the right to open access for the purpose of carrying electricity from captive generating plant to the destination of use.

**Implications:**

- More captive units may come up in future
- Possibility of group captive power units
- Tamil Nadu has already 23000 captive generation units with 3820 MVA capacity.

5. **OPEN ACCESS**

‘Open access’ means non-discriminatory provision for the use of the transmission lines or distribution system or associated facilities with such lines or system by any licensee or consumer or a person engaged in generation in accordance with the regulations specified by the Appropriate Commission.

6. **GRANT OF DISTRIBUTION LICENCE**

According to Section 14 of the Electricity Act 2003 the Commission may grant licence to two or more persons for distribution of electricity through their own distribution system within the same area. However distribution in rural areas to be notified by the State Government, does not require any licence.

7. **POLICIES TO BE PUBLISHED BY CENTRAL GOVERNMENT IN CONSULTATION WITH THE STATE GOVERNMENTS UNDER THIS ACT.**

1. National Electricity Policy.
2. Tariff Policy.
3. National Policy on stand alone systems for rural areas and non-conventional energy systems.
4. National Policy on electrification and local distribution in rural areas. Tariff policy is very important since regulatory commissions shall be guided by it for determination of tariffs.
8. **TRANSITION PHASE**

As per Section 172 of the Act, TNEB is deemed to be a State Transmission utility (STU) and a licensee for one year up to 9-6-2004. Extended up to 9-12-2005

9. **REORGANISATION OF THE BOARD**

As per Section 131 of the Act a transfer scheme has to be prepared by the State Government and published.

- All assets and liabilities of the Board to vest with the State Government
- Transfer scheme to provide for restructuring of the Board.

10. **PROVISIONS RELATING TO OFFICERS AND EMPLOYEES :**

    (1) The State Government may, by a transfer scheme, provide for the transfer of the officers and employees to the transferee on the vesting of properties, rights and liabilities in such transferee as provided under section 131.

    (2) Upon such transfer under the transfer scheme, the personnel shall hold office or service under the transferee on such terms and conditions as may be determined in accordance with the transfer scheme.

Provided that such terms and conditions on the transfer shall not in anyway be less favourable than those which would have been applicable to them if there had been no such transfer under the transfer scheme.

Sir,

Sub: Establishment-Payment of additional charge allowance Time limit - revised orders issued.

    2. Board's Sectt. Branch Memo.No.246544-02/79-2 date 4-12-79

In Board's memo Second cited, instructions have been issued that the proposal for sanction of additional of additional charge allowance should be submitted without any delay in any case within two month’s time from the date of termination of additional charge arrangement as admissible under Regulation 49 of the Tamilnadu Electricity Board Service Regulations either by head of office or by the Controlling Officer, as the case may be.

It has been represented that the 2 months’ time-limit prescribed for submitting the proposal for sanction of addl. Charge allowance by the Head of Office or / Controlling officer, is not practically workable in most of the case since the Head Of Office has to necessarily wait for the proposal from the official concerned as they have to furnish the details of works attended to by them during the period they held addl. charge of the post etc.

The above aspects have been carefully examined. In modification of the existing orders, the Tamilnadu Electricity Board directs that the time-limit for the submission of the additional charge proposals be revised as follows :-

a. The officials who held the full additional charge of the post, shall submit their proposals for sanction of additional charge allowance to the controlling officer within one month from the date of termination of addl. charge arrangement irrespective of the fact whether the approval from Head Quarter office is received by him or not.

b. The controlling officer should forward the proposals duly countersigned by him with his dated signature in the form prescribed for the purpose to the Superintending Engineer within 10 days from the date of receipt of the proposals.

c. The Superintending Engineer concerned shall forward the proposals to the sanctioning authority within three months from the date of termination of additional charge appointment as admissible under Regulation 49 of Tamilnadu Electricity Board Service Regulation in a complete shape.
The Superintending Engineers are requested to adhere to the above instructions scrupulously. They are requested to fix the responsibility on the Divisional Engineer / General for sending the proposal within the time limit prescribed. It may be brought to the notice of all the officials under the control of respective Superintending Engineers that the claims preferred after the time limit prescribed above will not be entertained.

The receipt of this memo, should be acknowledged.

SUPERINTENDENT
Sub: Accidents - Workmen's Compensation Act 1923-Sanction of Compensation under the Act in respect of fatal / non-fatal accidents to Board's Workmen-Instruction issued.

*****

1) The attention of the Superintending Engineers is invited to the reference cited, wherein they have been delegated with the powers to sanction the amounts of compensation payable under the Workmen’s Compensation Act 1923.

2) It has come to the notice of the Board that in certain system, Claims for compensation, due to accidents to Board’s Workmen, under the above act preferred with the Deputy Commissioner of Labour (Workmen’s Compensation) are contested as a matter of routine without examining the admissibility of the claim under the Act. In some cases, the claims are contested on the ground that the amount of compensation claimed is on the high side even though the amount claimed is in accordance with the provisions of the Act. Such unnecessary litigation results in harassment of the disabled and the families of the deceased and avoidable expenditure to the Board.

3) According to Sub-section (1) of Section 3 of the Workmen Compensation Act 1923, if personal injury is caused to a workmen by accident arising out of and in the course of his employment, his employer shall be liable to pay compensation in accordance with the provisions of Chapter II of the said Act. The provision to the above section states the employer shall not be so liable in respect of any injury, not resulting in death, caused by an accident which is attributable to (i) workman having been under the influence of drink or drugs or (ii) the wilful disobedience of the worker to an order expressly given etc. for the purpose of securing the safety of the Workman, or (iii) the wilful removal or disregard by the workman of any safety guard or device which is provided for securing safety of workmen. Decisions of courts go above that the burden of proving that the workman had disobeyed the express orders given by the authorities or remove or disregarded the safety guard or device which is provided for him, sequently lies on his employer in case of an injury not resulting in death, to disown the liability to pay compensation In case of death the employer is liable to pay compensation inspite of the negligence of the kind mentioned above on the part of the workman.
4) The superintending Engineers, are informed that were an accident affecting a Board’s workman arose out of and in the course of employment, the Superintending Engineer should apply his mind to the facts of the case and to provisions of the Act, and if the claim is clearly admissible compensation in accordance with the provisions of the Act as in force on the date of accident shall be sanctioned in exercise of the powers delegated to them in the B.P. Cited and the amount deposited with the Deputy Commissioner of Labour (Workmen’s Compensation) for disbursement to the dependents, provided the claim is preferred within two years from the date of accident/death.

5) Where a claim for compensation is preferred direct with the Deputy Commissioner of Labour than apart from depositing the sanctioned amount a counter statement may also be filed disclosing the facts and the quantum of compensation permissible under the Workmen’s compensation Act 1923.

6) Only in cases, where the Superintending Engineers are satisfied that the claim is not admissible or is excess as per provisions of the Workmen’s Compensation Act 1923, the claims should be contested. In such cases all efforts should be made to contest the claims successfully.

7) The superintending Engineers are also informed that in respect of the claims which are already pending before the court of Deputy Commissioner of Labour (Workmen’s Compensation Act 1923, further action shall be taken in accordance with the above instructions.

INTRODUCTION

It is very essential that officers should have a guide that will explain the correct procedure to be adopted in dealing with disciplinary cases. With various court rulings, it is necessary that proper opportunity should be given to every delinquent worker to defend himself and indicate his stand. An attempt has been made here to outline the procedure to be adopted in all disciplinary cases.

LABOUR PROBLEMS:- Labour problems are problems of human beings and has therefore to be dealt with as such. If management and Labour are to live happily, a fair deal should be assured to workers. The individual’s desire for self expression, self betterment and security of service has been noticed in increased proportion in recent years. With the advancement of industries and more in employment opportunities, the problem of labour have also assume larger proportions. I would venture to say, it is no problem at all to deal with labour, if certain amount of sympathy, tact and understanding is shown in dealing with Labour which is essentially human in character. It is the luck of benefits on the part of an employer or the suspicion on the part of the worker that be gets trouble which finally assumes a large proportion and ends in conflict leaving bitter taste all-around. Certain amount of anticipation and willingness to discuss the problems with Labour will relieve the strain to great extent. In the day to day administration, one finds that workers commit mistakes which are trivial and serious in nature. One should have the goodness to ignore trivial mistake. In cases where mistakes are of serious nature, naturally disciplinary action has to be taken. Such action becomes necessary in the interests of the industry, as if workers are allowed their own way, nothing but chaos will prevail. In taking disciplinary action, one should ensure that a delinquent worker is given all opportunity to defend himself. The procedure to be adopted is outlined in the following chapters.

NEED FOR DISCIPLINARY ACTION :- Before proceeding to take disciplinary action against a worker, an employer should satisfy himself as to whether there is prima-facie case. The nature of irregularity or misconduct should assessed first. The circumstances under which the offence was committed, should be taken into consideration before assessing the seriousness of the guilt. One may often find that the some offence committed at two different circumstances will very largely in its magnitude and will deserve two different kinds of punishment. Hence the quantum of punishment can never be prescribed for a given offence. It is for the employer to decide the quantum after taking into consideration, the nature, seriousness and the circumstances of an offence committed. To gain the objective stated above, it may not be possible to arrive at a fair conclusion unless a full enquiry is conducted in the matter. How to conduct an enquiry is the next question.

SUSPENSION PENDING ENQUIRY:- Only in very serious cases where, a prima facie offence is apparent, and continuance of the delinquent worker is detrimental to the interest of a
management suspension pending enquiry should be resorted to. For example in a case where a worker had assaulted a Supervisor and a tense situation is prevailing suspension of the workers will be called for. But normally, such suspension should be resorted to or reserved for absolutely serious occasions and should not be adopted as a normal or routine course of action, while a worker is under suspension the guilt is still to be established against him and as such as he should not be treated as a person against whom the guilt is established. Until it is established at the enquiry, the worker is supposed to be innocent of any guilt worker should not be kept under suspension for unduly long periods. Certain standing orders provide for a maximum period of four months Expeditious action would be taken to finalise the disciplinary action especially a worker is under suspension pending enquiry. It may also be added in this connection that suspension pending enquiry is no punishment. This should be clearly differentiated from suspension as a punishment. Suspension not exceeding four days (or as provided for in the certified standing orders) when awarded as punishment of a proved offence is without pay.

WHAT CONSTITUTED MISCONDUCT:- We are now faced with the problem of what are all the acts of commission or omission that will constitute misconduct on the part of worker. In the certified standing orders, the acts that would constitute misconduct are listed. It may be added in this connection that the list contained in the standing orders are by no means exhaustive Misconduct is a transgression of some established and definite rule of action. It is for bidden act and violation of law. As explained before, what exactly constitutes misconduct will depend on the circumstances and nature of each cases. It is therefore conclusive that it would be open to an employer to consider reasonably what conduct on the part of a worker could be treated as misconduct having known what is a misconduct the next step is how to conduct an enquiry.

PRELIMINARY ENQUIRY:- Whenever there is a prima facie case of an irregularity or misconduct is noticed on the part of a worker, preliminary enquiry. Enquiry should be conducted. Any Officer can conduct the preliminary enquiry. While conducting such enquiries as far as possible written statements should obtained from the complaints if any, delinquent and others. For example, if a worker is complained against by another co-worker or Maistry or Foreman or Supervisor a written statement should be obtained from them.

CHARGE SHEET:- The first step of a regular enquiry is the issue of a charge sheet. As soon as the management comes across or becomes aware of an alleged misconduct on the part of a worker, a charge sheet should be issued to the worker, setting forth particulars of the misconduct on the part of the worker. It is essential that the charge sheet should be specified and not vague. The date and time of the offence supposed to have been committed should be clearly indicated.
NATURE OF CHARGE SHEETS:- In cases where there are certified standing orders. The relevant clause of the same should also be quoted. In cases, where the charge sheet is based on written complaints, a copy of the written complaint should invariably be furnished to the delinquent worker. Hence it is now clear that great care, should be taken.

WHO SHOULD CONDUCT AN ENQUIRY:- If the officer issuing the charge sheet is likely to be witness in the case, it would be better for another officer to sign and issue the charge sheet. In any event if an officer is a witness he should never conduct the enquiry.

HOW THE CHARGE SHEET SHOULD BE DEALT WITH :- The charge sheet should contain only the charges and no punishment should be indicated in the charge about. For example a sentence like ‘Show cause why you should not be dismissed from service should not find a place in the charge sheet. The preliminary step therefore is to issue the charge sheet and an explanation from the worker should be called for i.e. the worker should be given an opportunity to explain his position against the nature of charge leveled against him. There is no time limit presented for obtaining the explanation. Normally two or three days time is given to a worker to offer his explanation. In cases where a worker makes a written request for extension of time for offering his explanation for the charge sheet such requests should be considered favourably to reasonable extent. If the delinquent worker refuses to receive the charge sheet given to him, the same may be sent by Regd. Post to the address to furnish their correct residential address and changes if any should be intimated to the Management within a week of such changes.

EXPLANATION OF WORKER:- When the worker submits his explanation and if an employer accepted the explanation further proceeding should be dropped and the worker completely exonerated of all charges. In cases where the worker admits his guilt and when the admission is unqualified, unconditional and unambiguous, there is no need for any elaborate enquiry. The worker may be merely called by a specific notice and asked to testify whether he had given his explanation admitting the guilt and necessary punishment may be awarded.

In case where the explanation not satisfactory, a further letter should be sent by the Management to the worker informing him that his explanation was not satisfactory and that an enquiry would be conducted in matter on a particular date. When it is proposed to conduct an enquiry into the charges, a reasonable time should be given to the delinquent worker to appear for an enquiry. He should also be permitted to bring his witnesses if any. If the worker seeks an adjournment of the enquiry for a reasonable cause, he could be granted. If a worker without intimation absentes himself for an enquiry, one more opportunity may be given to him and if he is absent even at the adjourned date an exparte enquiry may he held and the case disposed of on its merits. At the exparte enquiry all procedures should be followed.
THE ENQUIRY:- The Enquiry Officer should be a responsible officer of the establishment. He should begin with recording in his own hand the date of enquiry, the persons present at the enquiry. An enquiry officer should conduct the enquiry in a fair manner and should not leave any room for being accused as having been partial to any one side. He should assume that the delinquent worker is innocent and Officer should then read out the charges and ask the delinquent worker whether he had understood the charges. He should than ask him whether he pleads guilty to the charges. The fact whether the accused employee pleads guilty or not should be recorded. If the worker pleads guilty then there is nothing more to be done as far as the enquiry is concerned. The enquiry Officer has simply to report to the management that at the enquiry held on the particular date, the worker pleads guilty to the charges which were read out to him and hence the charges stand proved. The punishment should be awarded by the Chief Executive or any other authority to whom powers have been delegated. If the worker plead not guilty then evidence should be let in, to prove the charges. The first to be examined should be the main complainant or the main departmental witness. This is called examination in Chief. In this the witness should be asked to state what he knows about in facts of the case and the charges that have been framed against the worker. In short he should be allowed speak about all he knows in the matter and produce such documents which he proposes to let in as any evidence. All this should be done in the examination in Chief. One this is over, the delinquent worker should be allowed to cross examine the witness. The questions put by the worker and the answers by the witness should be recorded below the evidence itself under the heads, ‘Cross examination by the delinquent worker’. If the worker does not wish to cross examine, the witness and he did not do so. The opportunity to cross examine, should not be denied. After the examination cross is over, the Management or Enquiry Officer may put further question with a view to clarify or elucidate any statement made by the witness. This is called reexamination. The witness should be asked to sign at the conclusion of the evidence and deposition. If the witness is not familiar with the language in which the evidence has been recorded, then an interpreter should read out what has been written and after explaining what was written, obtain the signature of the witness and the accused and it should also the recorded that in interpreter read out the recorded evidence. The above prescribed process should be repeated in respect of all witnesses in support of the charges against the worker. Also the examination and cross examination of all management witnesses, the delinquent worker should be examined and asked make his statements. The enquiry officer may put question and elucidate answers and the worker may add what he wants to say besides the questions put to him at the end of his own examination. The enquiry officer should faithfully record what all he says and he should be asked to sign at the end and in each page or record of evidence. At the cross examination by the delinquent worker of any departmental witness, the enquiry Officer may disallow any questions, which in his opinion was irrelevant to the case. A record should be made as to this effect.
The accused worker should then be allowed to let in his own evidence or the defence witnesses. The statements of the witness should be recorded and the delinquent worker may be allowed to cross examine his own witnesses if he desires to do so. If the witnesses cited by the worker are co-workers, the management should given them permission to attend the enquiry if the witnesses are outsiders on whom the Management has no control, his own right to cross examine the witnesses as produced by the worker. All these should be recorded. All the witnesses should be examined in the presence of the accused workers.

**ADJOURNMENT OF ENQUIRY:** If the enquiry is not finished within the stipulated time, the same may be adjourned to next day or any others day convenient to all the parties and a record should be made to that effect.

**UNION REPRESENTATION ON THE ENQUIRY:** Some time accused worker requests for permission to be represented by a trade union official. If there are certified standing orders and if the standing orders contain a provision for such representation the same may be permitted. At times the Magistrate and workers might have an agreement to that effect, in which case also the worker can be permitted to bring an union official to represent his case. In the absence of any such provision, the management are presented by a co-worker. The same may be permitted at the discretion of the Management. In many case such requests are not bound to be accepted automatically unless there is specific agreement to that effect.

**MARKING OF EXHIBITS:** All exhibits that are marked at the enquiry should be listed and the accused so worked should be allowed to secure and if necessary his initials may also be obtained on the documents in token of this having seen them. Copies of any documents required by the worker may be furnished to him. If he wants a copy of the Enquiry report, the worker may be told to take such notes as he thinks fit from the enquiry report and the Management are not bound to give a full copy of the report as that would be a tedious work.

**CONCLUSION OF ENQUIRY:** At the conclusion of the enquiry proceeding the enquiry officer should give his findings in respect of each charge. His findings should be supported by reasons for his coming to that conclusion. Mere recording that the enquiry officer finds the accused guilty of all the charges will be of no use. In other words he should record in respect of each charge, why he agrees or disagrees with the employees’ contention or why he believes or disbelieves the various evidences let in at the enquiry. For each charge, he should say whether the same has been proved or not. No doubt appreciation of evidence let in during the domestic enquiries, is within the exclusive jurisdiction of the enquiry officer. He should take care to set that his findings are not perverse. A perverse findings is one which is not supported by any evidence or is entirely opposed to the whole body of evidences available before him. As mentioned earlier, the enquiry officer should not before import his personnel knowledge of the charge and
base his findings on the basis of that knowledge. Unspecified documents and these that have not been inspected by the delinquent worker shall not be relied upon.

The Enquiry Officer if he is not the punishing authority should submit his report and findings along with the enquiry report to the authority that is competent to impose the punishment. In case the enquiry officer is not the punishing authority he should not suggest the nature or extent of punishment to be imposed.

FINAL ORDERS:- The punishing authority after going through the report available should decide on the quantum of punishment to be awarded. He should take into account if there are any extenuating or aggravating circumstances and the past record of service of the worker in deciding the punishment award. The final letter imposing the punishment should make a reference to the charges, the enquiry held for the purpose the findings of the Enquiry Officer, and the decision with regard to the punishment. The date on which the punishment will take effect should be clearly specific. A dismissal order is normally given only a prospective effect.

CONFIDENTIAL:

Copy of circular Memo.No.CED/N/TA/ST-132/81 dt.9.11.1981 from the Chief Engineer/ Distribution/North, Madras to the superintending Engineer, Pudukottai and others.

On perusal of Disciplinary proceedings file received from the system, it is noticed that the delinquent had made a request for change of enquiry officer in the letter addressed to the enquiry officer with a copy to the superintending Engineer immediately on receipt of summon from the enquiry officer and had requested for appointment of another officer of some other division to conduct unbiased enquiry. Neither his request was conceded nor he was given any reply negating the request with reasons thereof.

Though there is no legal bar for appointment for any officer other than the investigating officer who is not biased or has any motive as enquiry officer, it is the right of the delinquent to raise objection to the appointment of enquiry officer at the earliest viz., immediately on receipt of the intimation of appointment of enquiry officer or on receipt of summons. The proper authority to consider such objection is the punishing authority (in most cases the superintending Engineers). If the application is presented to the enquiry officer, then the enquiry officer should forward the reference to proper authority with his remarks for disposal and postpone the enquiry. Further it would be very embarrassing for the enquiry officer to decide on such requests questioning his own character. In civil and criminal proceedings if objection is taken that a particular judge is biased then the application is generally given to the superior courts. So if any such objection is brought before the enquiry officer, it is desirable for him to refer the matter to the higher officers and get their orders, before proceeding to conduct the domestic enquiry. When the objection is raised on the appointment of enquiry officer, then it is the responsibility of the punishing authority to call for the comments of the enquiry officer and then the punishing authority should either change the enquiry officer or negative the delinquent’s request furnishing the reasons thereof. It is the basic rule that the justice should not only be done and should manifestly be seen to be done.

Hence whenever the delinquent apprehend that he will not get fair trial from the enquiry officer appointed particularly appointed within that division, (when the D.P. is initiated by the Divisional Engineer or by Assistant Divisional Engineer under him), it is desirable that the enquiry officer is nominated from one among the officers of other division as the delinquent cannot come up later with the plea that the enquiry was only an empty formality and entire proceedings were stage managed.
It should also be ensured that in future whenever any objection is received on the appointment of enquiry officer from the delinquent, the punishing authority, viz., the Superintendenting Engineer will examine in detail calling for full particulars from the enquiry officer as well as from the delinquent if necessary and decision should be communicated to the delinquent so that the entire proceedings will not get vitiated later. The domestic enquiry should be held only after this communication is served on the delinquent.

The Superintendenting Engineers / O & M are requested to keep in view of the above instructions while delaying with Disciplinary proceeding cases.

The receipt of this circular memo may please be acknowledged.

GOVERNMENT OF TAMILNADU

ABSTRACT

Public Servants Tamilnadu Civil Services (Classification control and Appeal) Rules-Penalty of reduction of lower post on the scale on permanent basis or for unspecified period-not permissible -orders-issued.

Personnel And Administrative Reforms(personnel-n)Department

Order:

The question whether imposition of the penalty of reduction to a lower post as a permanent measure or for unspecified period on a Government servants in order has been engaging the attention of the Government for the past some time. In this connection, the following decision of the Madras High Court in S.Guruva Reddi Versus State of Tamilnadu, in Writ petition No.4389 of 1979 has been brought to the notice of the Government:

“Rule 29 of the Fundamental Rules 8 of the Tamilnadu Civil Services (Classification control and appeal) Rules do not provide for the imposition of a penalty of permanent reversion. On the other hand, they have been worked in such a manner as would clearly indicate that the reversion can only be for a specified or unspecified period, which means that there cannot be permanent reversion, On that ground also, the punishing authority must be deemed to have acted in excess of the powers conferred on him by law.

1. Lastly, as urged by the petitioner, a penalty of permanent reversion will have the effect of double punishment on the petitioner on that he suffers a reversion and further more, stands debarred from promotion for ever”/

2. After careful consideration, the Government have decided to communicate the above observations of the High Court, to all punishing authorities for information and guidance. The Government also direct that the penalty of reduction to a lower post or to a lower time-scale should not be imposed on a Government Servant either permanently or for unspecified period and that such penalties should be imposed only for a specified period.

3. The Government further direct that past cases need not be reopened on account of the above orders. However, the observations of the Highcourt may be taken note of while dealing with pending and future cases.

4. Amendments to Fundamental Rules in this regard will issue separately.

(By Order of The Governor)

10803/LC/182-1 dated 13.4.82
1. The Point for consideration is whether the discipline proceedings in which final order has already been passed can be re-opened on the ground that ‘Warning’ is not a punishment specified in the Standing Orders for Clerical Workmen. The general law is that then the competent authority takes a particular decision, is not suspicion of reconsideration. That is, the hatchet once buried should not be unearthed again and again. Therefore, any higher authority to the superintending Engineer of the appellate authority cannot interfere with the order of the competent authority in the absence of specific provision therefore in the standing orders or in the Rules Governing the conditions of service of the employees. If ‘Warning’ is not considered as a penalty, it must be deemed that the fault or mistake committed by the Board’s employee is condoned and overrun in such a case the matter cannot be revived. In Koinoor Saw Mills Co., Vs. K.Narayan (1955 II LLO G85) and in P.Orr & Sons. Vs. Workmen (1958 IILLJ 152) it was hold that if once petition is taken and a worker is either warned or suspended, then that cannot be made the basis for the subsequent action. Thus, irrespective of the fact whether ‘Warning’ is a punishment or not, once departmental proceeding is closed, it cannot be revived. Please compared in this connection the provisions contained in Regulation 15(3) of T.N.E. Board Discipline & Appeal Regulations which authorises the appellate authority or any higher authority to call for the enquiry papers and pass suitable orders, if in his opinion the punishment given is inadequate or excessive. Similar provisions are not found in the standing orders for clerical workmen. Hence, the matter which has already been closed cannot be revived.

2. The fact that the delinquent employee Thiru R. Ramasamy, Assistant has been merely warned for claimed false T.A. does not however, mean that all similar cases should be dealt with in the same manner. Each case will have to be dealt with on its own merits having regard to the facts and circumstances of the Case. This case need not necessarily be a guiding factor to similar cases relating to claim of false T.A.

Sub: Procedure for Conducting D.P. - Furnishing of Copies of Complaint Petition to the Delinquent officers during the enquiry - Regarding.

Ref: Representation dated 29-9-92 from the Tamilnadu Electricity Worker’s Federation.

If has been brought to the notice that in a case, the request of a delinquent workman for supply of a copy of the complaint petition based on which investigation was made and action initiated against a staff was not furnished to him. Refusal to furnish a copy of the complaint petition, will amount to denial of reasonable opportunity to the delinquent workman, to defend his case, and will be against the principal of natural justice.

The attention of the superintending Engineers (Disciplinary Authorities) is invited to the Board’s circular Memo No. 2245/D1/79-10 dated 15.6.81 wherein a revised questionnaire form has been prescribed. In the revised form the list of documents to be produced at the enquiry shall be indicated. Copy of such of those documents should be supplied to the delinquent workmen, if a request is made in writing by the delinquent workman. However copies of Part ‘B’ reports sent by the Director of Vigilance and Anti Corruption and Vigilance Cell enquiry report need not be made available to the delinquent official as they are intended only for guidance of the Enquiry officer and the same will not for part of the basic record for giving findings by the Enquiry officer.

The above instruction may strictly be adhered to.

The receipt of this memo, may be acknowledged.

Memorandum (Per)No.97142/A7/A72 /2008-3Dated.3.7.09

Sub: House Building Advance Rules-Sanction of house Building Advance -Non-
Occupation of Board’s quarters attached to the post-House Rent Allowance
paid-Audit objection- Instructions-Issued.

**********

1. According to Rule-12 of the Tamil Nadu Electricity Board House Building Advance
Rules, the employees of the Board provided with departmental quarters ,for whom HBA has
been sanctioned under these rules for construction of house, should vacate the Board’s quarters
immediately on occupation of the newly constructed house or on completion or within eighteen
months after the date on which the first installment of advance is paid, whichever is earlier. In
the case of advance sanctioned for purchase of Ready Built House, the Board’s quarters should
be vacated within one month from the date of disbursement of the advance or occupation of the
house, whichever is earlier.

2. According to the relevant Rules stipulated in Regulations 2,7 and 10 of the Tamil Nadu
Electricity Board Special Pay and Allowances Regulations, an employee of the Board ,who is
holding a post which is provided with residential quarters, is responsible for the said residential
quarters during the period of his service in that post.

3. It is observed that in certain cases, the employees, who have held the posts which are
provided with residential quarters, have resided in their own houses constructed out of Board’s
loan instead of occupying the Board’s Quarters attached to their post, citing Rule 12 of the
House Building Advance Rules, as mentioned in para 1 above. The above action of the employees
has been objected by the Accountant-General Audit party as well as Board’s Audit party and
insisted to recover the House Rent Allowance paid to them, as per the Rules stipulated in the
Tamil Nadu Electricity Board Employees Special pay and Allowances Regulations, as mentioned
in Para2 above .The employees have ,therefore ,represented to drop the proposal of recovery of
House Rent Allowance paid to them, to comply with Rule 12 of House Building Advance Rules,
the request of the Employees to consider their cases is not correct in view of the Rules in the
Tamil Nadu Electricity Board Special pay and Allowances Regulations.

4. Hence, It is hereby ordered that Rule 12 of The Tamil Nadu Electricity Board House
Building Advance Rules need not be made applicable to the Employees of the Board, when they
are holding the posts which are provided with Board’s residential quarters, since they are
responsible for such residential quarters attached to the post during the tenure of their services in such posts as per the provisions in the Tamil Nadu Electricity Board Special pay and Allowance Regulations.

Sir,

Sub: Establishment - Employees suspended based on DV&AC cases and subsequently joined duty on revocation of suspension - Sanction of annual increment - Clarification - Regarding.

Ref: 1. This office Letter No. 6112/A18/A181/2009-1 dated 29.01.2009.

****

1. With reference to your letter cited, I am to inform that as per Note: 2 under Regulation 35 and Regulation 36(a) of TNEB Service Regulations, no impediment to allow annual increment for the duty period notwithstanding the fact of pendency of DV&AC case. However, in the case of Thiru A.V. Moorthi, Foreman I Grade/Chennai EDC/South, there is no need to sanction the annual increment after completion of one year from the date of his rejoining duty on revocation of suspension, as he was again placed under suspension beyond the date of superannuation on 29.04.2005.

2. Further, in respect of the cases of Th. N. Selvatharasu, Junior Engineer I Grade and Th. A. Karthikeyan, Assistant Engineer/Elec. referred to in your letter dated 29.05.2009, I am to inform that the above officials are on duty from 27.07.2007 and 12.04.2006 to till date, respectively and no punishment has been imposed on them. Hence, withholding of annual increments for the duty period citing the pendency of the DV&AC cases against them, may not be correct as per the regulation provisions mentioned in para-1 above. As such, there is no bar to sanction annual increment for the duty period from 27.07.2007 and 12.04.2006 to Thiru N. Selvatharsu, JE I Grade and Thiru A. Karthikeyan, Assistant Engineer / Elecl. respectively.
4. In view of the above. I am to request you to sanction the annual increments to Th.N.Selvatharsu, Junior Engineer I Grade and Th.A.Karthikeyan,AE/Elec. on 26.07.2008 and 11.04.2007 respectively (i.e. after completion of one year from the date of rejoining duty)

5. I am also to request you to acknowledge the receipt of this letter.

Yours Faithfully,

(C. Bhaskaran)
Section Officer,
for Secretary

i) Wherever special grade or selection grade posts are existing at present for any category, the scale of pay applicable to such special grade or selection grade posts shall be allowed as selection grade scale of pay with reference to the orders in these proceedings.

ii) In other cases (upto the level of the employees carrying the scales of pay mentioned above only), the scales of pay applicable to the next higher category in the line of promotion shall be allowed as selection grade scale of pay with reference to the orders in these proceedings. In cases where there is no higher category in the line of promotion for any post, no selection grade scale of pay shall be allowed. Adopting the above principles, the holders of the posts in the categories mentioned in column (1) of the Annexure to these proceedings shall have the scales of pay of the categories indicated in corresponding entry in column (2) thereof, as selection grade scales of pay.

(b) The present total number of posts available in a category in the ordinary grade, special grade and selection grade (selection grade posts sanction with reference to existing schemes as well as those sanctioned with reference to this order) shall be taken together and no fresh sanction should be asked for with reference to this scheme of advancement to selection grade. Within the total number, the Chief Engineer (General) or the Authority competent to order promotions can vary the numbers among the ordinary, existing special/selection grade and selection grade with reference to this order, depending on the advancement of personnel from one grade to another.

(c) This new scheme of selection grade will come into effect from 1<sup>st</sup> January 1979.
(d) Fixation of pay under Regulation 33(b) of the Tamilnadu Electricity Board Service Regulations shall not be applicable for the persons who are appointed to selection grade from the ordinary grade. The employees moving to the selection grade shall be allowed fixation of pay at the next higher stage whether the pay in the ordinary, existing special/selection grade represents a stage in the scale of pay in the selection grade with reference to this order or not.

(e) The pay of an employee appointed to the selection grade (with reference to this order) on the date of accrual of increment in the ordinary grade or existing special/selection grade post shall be fixed without taking into account the increment that accrued in the ordinary grade or existing special/selection grade scales of pay and then he shall be allowed to draw his increment on that date in the selection grade scale of pay.

(f) Employees who are on other duty shall also be appointed to selection grade.

(g) Leave, other than extraordinary leave without pay and allowances, should be taken into account while computing the 10 year period. The period of ten years in a post will be reckoned from the date of regular appointment to the post but will exclude the periods of reversion.

(h) A senior employee in the ordinary grade and existing special/selection grade will also be appointed to the selection grade with reference to this order with effect from the date on which his junior is appointed to the selection grade, even though the senior might not have actually put in the required 10 years of service.

(i) The Chief Engineer (General) or the Authority competent to order promotions shall prepare a list twice in a year, not later than 1st April and 1st October, of employees eligible for advancement to selection grade. While so drawing up the list, the employees who have completed the prescribed period of 10 years in the preceding period of six month should be taken up and orders issued. The appointment should, however, be made with effect from the actual date of completion of the 10 year period. No option will be allowed to the employees to choose a date other than the actual date of completion of 10 years service to move to the selection grade. The first list of employees eligible for advancement to selection grade as on 1.1.1979 shall be prepared immediately. The next list of employees eligible for the advancement from 2.1.1979 to 30.11.1979 shall be prepared by 31.1.1980. Further lists may be prepared by 1st April and 1st October. The Chief Engineer (General) or the Authority competent to order promotions shall take care to see that the total sanctions are not exceeded by advancement of personnel from the ordinary grade, existing special/selection grade to selection grade with reference to this order.

4. In the case of posts for which selection grade is not provided in this order, the employee holding such a post shall be given two increments (including the normal increment falling on the same date or thereafter) on his completing 10 years service in the same post. This
benefit will be available only once in his service but it will be with cumulative effects. The usual annual increments will be sanctioned for the subsequent year onwards.
